

AZIZULAZRI BIN AMIR SHARIFUDDIN WONG

DATA ENGINEER/SCIENTIST

+6012-5413754 | azizulazri.amirsw@gmail.com | Shah Alam, Selangor | linkedin.com/in/azizulazriamirsw

PROFESSIONAL SUMMARY

Versatile IT Professional and Senior Data Engineer with 10+ years of experience in data integration and software application development. Specializes in building highly reliable ETL/ELT pipelines, Bronze-Silver-Gold architectures, and driving BI enablement. Known for adaptability to shifting business strategies and fostering seamless communication across Sales, Operations, BI, and Client stakeholders to ensure optimal data quality.

WORK EXPERIENCE

Concentrix SREV | Kuala Lumpur

(13 Years 8 Months)

(Redundancy due to company restructuring)

Data Scientist

Jul 2021 - May 2026

Responsibilities

- **BI Architecture & Pipeline Development:**
 - Designed and maintained robust data pipelines to support the Business Intelligence team, ensuring seamless data flow for downstream usage.
 - Configured data ingestion from production servers to cloud storage, establishing a scalable foundation for enterprise analytics.
- **Data Processing & Warehousing:**
 - Engineered and maintained a scalable Medallion architecture, executing data transformations from Bronze (raw) to Silver (cleansed) to Gold (aggregated) layers.
 - Implemented rigorous data prepping and accuracy checks to ensure strict data integrity before downstream consumption.
- **BI Migration & Platform Transition:**
 - BI report migration initiatives, successfully reverse-engineering legacy Power BI dashboards and semantic layers into Tableau or Domo.
 - Researched and prototyped Databricks Lakehouse architecture to replace legacy on-premise systems, enabling real-time analytics and improved pipeline scalability.

Core Competencies

- **Processing & Warehousing:** Databricks, Dremio (Hive, Nessie, Unity Catalog).
- **BI & Data Visualization:** Domo, Tableau, Power BI.
- **Data Engineering:** ETL/ELT Pipelines, Data Warehousing, Medallion Architecture (Bronze to Gold).
- **Data Quality:** Accuracy Checking, Data Prepping, Transformation.

Data Engineer 1

Aug 2017 - Jul 2021

Responsibilities

- Maintained and optimized automated daily ETL pipelines within data lake and warehouse structures.
- Orchestrated data workflows by scheduling, monitoring, and debugging Apache Airflow ingestion DAGs.
- Reduced system downtime by rapidly diagnosing and troubleshooting complex production DAG errors.
- Led data recovery efforts by performing fallout analysis, data reprocessing, and error remediation.
- Engineered agile solutions by developing custom, ad-hoc Airflow DAGs for rapid data updates.

Core Competencies

- **Cloud Storage and Db Management:** AWS (s3, emr), Dbeaver/HUE (Hive Sql, MySql)
- **Orchestration:** Apache Airflow (Python), DAG Design, Workflow Scheduling, Pipeline Monitoring.
- **Operations:** Fallout Analysis, Data Reprocessing, Troubleshooting, Incident Management.
- **Data Engineering:** ETL Pipeline Development, Data Architecture, Ad-hoc Data Updates.
- **Data Analytics & Quality:** Bookings Reconciliation, Monitoring Reports, Data Auditing.

Junior Data Engineer

Aug 2016 - Jul 2017

Responsibilities

- **ETL Pipeline Development:** Designed, built, and automated robust ETL packages.
- **Data Transformation:** Implemented data cleansing, filtering, and validation logic within SSIS data flows.
- **Data Integration & Schema Updates:** Collaborated with cross-functional teams to manage incremental updates and sync new data fields from shared locations to the CRM, supporting sales and operations.

Core Competencies

- **Databases and Languages:** Microsoft SQL Server, T-SQL
- **Data Engineering:** ETL Design, Data Integration, Data Cleansing, Workflow
- **Automation ETL/BI Tools:** SQL Server Integration Services, SQL Server Management Studio

Automation Engineer

Aug 2014 - Jul 2016

Responsibilities

- **Research:** Story building based on individual client identifying processes for automation.
- **Data Engineer:** Designed and built pipeline to eliminate manual repetitive tasks, with integrated UI for production usage.
- **Data Accuracy:** Centralize reference data ensuring accuracy for production use.

Core Competencies

- **Databases and Languages:** Microsoft SQL Server, T-SQL, Microsoft Excel vba
- **Automation ETL/BI Tools:** SQL Server Integration Services, SQL Server Management Studio
- **Data Engineering:** Automation Solutions design, develop and maintenance.
- **UI Platform:** In-House (html, vb.net)

Operation Services Specialist

Aug 2013 - Jul 2014

Responsibilities

- **Data Scrubbing:** Customer assets research from client data, produce a renewal quote for Sales use.

Senior Sales Support Administrator

Nov 2011 - Jul 2013

Responsibilities

- **Data Scrubbing:** Customer assets research from client data, produce a renewal quote for Sales use.

SKILLS

Tools

- **Database Management & Analytic:** SQL Server Management Studio, DBeaver, Apache HUE, Dremio
- **Data Integration, ETL & Workflow:** Databricks, Apache Airflow, Microsoft SQL Server Integration Services
- **BI & Data Visualization:** Domo, Power BI, Tableau
- **Infrastructure Storage:** AWS (s3), Databricks (HFDS)
- **Software Dev and Version Control:** Visual Studio, Github, Gitlab
- **Project & Knowledge Management:** Jira, Confluence

Languages

- **Query:** T-SQL, MySql , Hive SQL, PySpark SQL
- **Programming:** Python, vb.net, vba

EDUCATION

Diploma in Business Administration | International Islamic College

CERTIFICATION

Big Data Analytic Applied Data Engineering | Fusinex
